<i>See Continuation Sheet</i>			
Part III.			
<input checked="" type="checkbox"/> It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.			
<input type="checkbox"/> It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.			
/Taeyoon Kim/ Primary Examiner, Art Unit 1651			
(Applicant/Applicant's Representative Signature – if appropriate)			

Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner has proposed the claim amendment on claim 36 to disclose the stem cells being as "CD34+" cells based on the finding that the claimed invention requires c-met expression and CD34+ cells would express c-met while CD34- cells do not according to the teaching of Weimar et al. Applicant counter-proposed to amend the stem cells being c-met expressing stem cells. The Examiner indicated that the applicant's proposal would be equally effective and place the application in condition for allowance.
